

Remodel health

Health benefits software for employers that helps you save money and care better for your team.

Set your budget & define your health benefits strategy.

Our software helps employers choose a monthly allowance to go towards their employees' health benefits plans.

Employees buy their own, individual plans.

Your employees use their monthly allowance to browse health benefits to meet their personal medical needs.

Our software packages their plans into one bill.

We keep everything organized for you by sending a single bill & auto-deducting premiums from payroll.

Receive ongoing support from Remodel Health.

Both employers & employees receive top-notch service and ongoing, one-on-one support from our Care team.

This is a brief description of products and/or services available through Remodel Health. This document does not provide coverage of any kind, nor does it modify the terms of any policy, certificate or contract. Not all products or services are available in all states. All coverages are subject to conditions, coverage limits, limitations, and exclusions in the policy, certificate or contract. For exact details of any products or services, please refer to actual policy, certificate and/or contract. Remodel Health does not process claims and cannot give advice about whether any claim is or is not payable. Coverage for actual claims will be determined by the entity providing coverage and will be based on applicable policy, certificate or contract. Remodel Health is a licensed business entity insurance producer (insurance agency). See the Privacy section of our website for more details.
